WOOD'S CROP SPECIAL

Giving Timely Information and Prices of Seasonable Seeds

PUBLISHED BY T. W. WOOD & SONS SEEDSMEN RICHMOND VA.

Since our catalog went to press, there have been many changes in prices, due to war conditions and enormous buying of seeds by the Government for shipment to England and other allied countries. This has also caused a definite shortage in stocks and we believe it a wise policy to purchase your spring needs at once.

These conditions have necessitated the following price changes, which are made in this Crop Special, subject to immediate acceptance and prompt shipment.

Wether

T. W. WOOD & SONS

SEEDSMEN SINCE 1879

WOOD'S GRAIN PASTURE MIXTURE

furnishes more grazing in less time and at less cost than any other spring crop. The grains are balanced with legumes to provide protein for growth and warmth during cold weather. Sow it for grazing before grass and clover pastures are ready, or as a nurse crop when seeding permanent grass and clover pasture mixtures. Although relished by all livestock it is particularly popular for poultry and hogs as it contains rape properly balanced with spring barley, oats, and rye grass, so that it cannot cause bloating. Protein is furnished by crimson clover, Canada field peas, hairy vetch and Austrian peas, which also improve the soil.

WOOD'S GRAIN HAY MIXTURE

Makes a much heavier yield that is far more palatable and nutritious than oats or any other crop sown alone. It is a fine spring hay crop, easy to cure and relished by all livestock. It contains oats properly balanced with crimson clover, Canada field peas, and hairy vetch.

Sow both Mixtures 100 lbs. per acre. Prices: 100-lb. lots and over, 4 1/2 c. lb.; 25 to 99-lb. lots, 5c. lb.; less quantity, 6c. lb.

WOOD'S HIGH-GRADE FEEDS

POULTRY--PIGEON--DAIRY--DOG

There is no more constant source of income every month in the year than poultry, either in cash sales or in cutting down the grocery bill. A little extra attention will considerably increase this income.

Chickens need a well balanced diet to make a healthy, vigorous growth. We manufacture daily in our plant in Rich-
